FLORENCE, SC - The City of Florence is back with updates after the holidays as a part of the #NextPhaseFlorence Hurricane Matthew Clean-Up Effort. Updates include storm debris removal by zone, collection reminders, and FEMA Debris Removal Guidelines.

- Contractors returned to Florence after the holidays to continue removal of storm debris on Tuesday, January 2, 2016. Beginning on Monday, January 9, 2016, contractors will begin a second pass in Zones 1, 3, 4 & 6. Contractors are still working to complete the first pass in Zones 2 & 5. To date, contractors have collected 1,881 truck loads of storm debris totaling 93,216 cubic yards.
- Residents are reminded that we will complete a total of three passes in each assigned work zone. As debris is removed, residents are encouraged to move debris to the right-of-way that you may not have been able to get to the street during the initial sweep due to space limitations. Residents are also reminded that debris must not be co-mingled for collection.
- To expedite debris removal, please refer to FEMA Debris Removal guidelines, which specifies how debris must be separated.

Debris removal guidelines

In efforts to expedite the debris removal process, please follow these rules
